

BETTER SCIENCE. BRILLIANT WATER®

CUSTOMIZED ADVANCED PERFORMANCE

Utilizing dual-chamber technology, our Evolve Series EVRF unit combines the power of two medias in one tank. The high-performance resin media works in conjunction with a specialized filtration media to address your specific water needs.

The EVRF not only reduces hardness, but can also handle other common water issues such as iron, manganese, particles, acidity, hydrogen sulfide, and chlorine. The advanced, patented technology equipped in the controller also keeps your system running at maximum efficiency.

The system is designed to be environmentally-friendly while safeguarding your household plumbing and appliances, improving taste and eliminating unwanted odors. The result is more brilliant water through better science, which saves you time and money.

ENGINEERED TO YOUR WATER

Just like every home is different, all water sources will have a unique mixture of issues. The Evolve EVRF top chamber is a versatile feature that allows us to create a system specific to your water needs. We offer a variety of different filtration options to customize your unit's top chamber capabilities.

Our water experts will find out what is exactly in your water and create a treatment systems tailored to your needs. Please see the reverse side for more details on the filtration options.

Wripli® is the most advanced WiFi technology in water treatment today. Receive alerts, track water usage and view savings right from your phone, tablet or desktop. You can also activate "Vacation Mode" from anywhere in the world.

ADVANCED DESIGN FOR FLEXIBILITY AND EFFICIENCY.

Every component, feature, and innovation of the Evolve Series® EVRC has been designed to bring the highest quality, most efficient water to you and your family. All components have been tested and certified for compliance with NSF/ANSI 61.

1 Patented Technology is Smarter

- Deep cleaning regeneration only when necessary
- Exclusive features insures consistent water quality
- Vacation Mode to prevent unnecessary regenerations
- Only one internal moving part for easy maintenance
- Battery back-up
- Equipped with **W.E.T.** (optional)
 - **Proportional Brining:** Uses less salt (Available on Upflow Units Only)
 - **Proportional Regeneration:** Uses less water
 - **Alternate Regeneration:** keeps the system running at peak performance
 - **Salt Monitor:** triggers alarm when salt levels are low
 - **Savings History Screen:** shows how much it saves

• Wripli Enabled (optional)

- **Current Flow Rate:** See how much treated water is running through your home in real time.
- **Water Usage:** Monitor the total number of gallons of water your home used during the day.
- **Savings:** See how much salt and water you have saved with W.E.T.
- **Notifications:** Receive notifications for salt reminders, service alarms and system errors.
- **Vacation Mode:** Set Vacation Mode from anywhere in the world.

2 Patented Chlorine Generator

- Ability to self-sanitize
- Monitors every cleaning

4 Custom Filtration Selection

- Choose from options listed below

3 High-Performance Resin

- Powerful and durable media
- Reduces the minerals that cause hard water
- Undergoes rigorous quality control testing

5 Low-Maintenance Brine Tank

- Built-in safety float
- Heavy duty, corrosion-free material
- Fills with soft water which reduces cleaning
- Dry salt storage

SOLUTION-DRIVEN FILTRATION MEDIA OPTIONS:

We may recommend a mixture of medias, depending on your unique water conditions, water source, and well system. This versatility customizes your filtration system to match your needs and enhance performance.

Catalytic Carbon	Turbidex	Calcite	GreenSand Plus	Birm
<ul style="list-style-type: none"> • Reduces hydrogen sulfide and chlorine • Filters dissolved organic compounds • Exceptionally high capacity and efficiency 	<ul style="list-style-type: none"> • Removes turbid particles by both physical and electrostatic adsorption • Light-weight material capable of high flow rates 	<ul style="list-style-type: none"> • Naturally occurring white marble media • Neutralizes acidic waters to prevent damage to fixtures and plumbing 	<ul style="list-style-type: none"> • Reduces iron, manganese, and hydrogen sulfide • No need for a pre-filter • No lengthy startup periods 	<ul style="list-style-type: none"> • Highly efficient iron and manganese removal • Durable media for a long life span • Handles a wide temperature range
