

Truckee Meadows Water Systems is a small second generation family owned business since 1993. Since then, we have sold and installed over 10,000 systems!

Chlorinated water tastes bad, smells bad, makes your hair brittle and your skin dry and itchy. It also dulls your clothes. The city adds it to your water to protect against bacteria and viruses, but that doesn't mean you have to drink it, or shower in it! Chlorine is a poison and chlorine by-products are carcinogens.

Now you can protect your family, protect your home, and stop wasting money on bottled water.

We are Nevada State licensed contractors and Water Quality Association certified water specialists and certified installers.

Salt Free, Eco Friendly

Introducing the Sierra VII 7 Stage Water Conditioner with Ultra Violet Light Protection

- Great tasting, **healthy** water at every tap in your home.
- Reduces or removes chlorine and chlorine by-products, chemicals, VOC's, pesticides, herbicides, trihalomethanes, MTBE solvents and other contaminants that you and your family **don't** want in your bodies!
- Helps **rejuvenate** dull, dry skin and hair and gives you brighter clothes and spot-free dishes.
- Better than bottled water at a **fraction** of the cost.
- Salt-free and **environmentally friendly**. Never shower in chlorine gas again (which is worse than drinking it)!
- Leaves in beneficial minerals and **stops bacteria**, viruses, fungi and mold growth.
- 1,000,000 gallon capacity with a 5 Year **Limited Lifetime Warranty**

ECO FRIENDLY

The Sierra Spring VII

SYSTEM SPECIFICATIONS

Model-inlet	Tank size	PEAK flow rate	Media in c.f.	Backwash	UV intensity *	Capacity in gallons
SIERRA VII -3/4	8X40	7.5	1	4 GPM	24,000 microwatt	500,000 gal
SIERRA VII-1"	12X52	15 GPM	2	8 GPM	24,000 microwatt	1,000,000 gal
SIERRA VII-1 1/4"	13X54	20 GPM	2.5	12 GPM	24,000 microwatt	1,500,000

Warning: Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system. Intended for use with cold water only & for residential use only. System will not remove arsenic, nitrates or uranium & is not a water softener that removes calcium, iron or magnesium. System cannot freeze.

Superior Water Conditioners

Superior Water Conditioners help homeowners protect their plumbing system and related appliances from lime/scale build-up and corrosion. Energy efficiency and life expectancy of equipment are also increased, saving both time and money while reducing maintenance costs.

Water treated with Superior Water Conditioners will dissolve existing scale and help protect your plumbing system from future scale build-up, resulting in optimum water pressure throughout your home and increased life expectancy for your appliances and plumbing system.

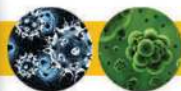

Install a **Sierra VII UV disinfection system** and you no longer have to be concerned about waterborne pathogenic organisms causing illness. A must for anyone with a compromised immune system, UV systems kill bacteria, viruses, and other pathogens by preventing them from reproducing.

With a lamp Age Display that indicates when the UV bulb needs to be replaced

- 8-24 GPM peak flow - Ideal for most homes
- Does not affect taste, color and odor of the water
- Capable of destroying 99.9% of harmful micro-organisms including: E. coli, Cryptosporidium and Giardia
- Easy to maintain
- Natural and safe disinfection without the use of harmful chemicals
- No disinfection by-products
- Fast acting
- Effective against a broader range of organisms than chlorine

Pure. Proven. Results.™

AVOID BOIL WATER ALERTS KILL 99.9% OF VIRUSES AND BACTERIA

- 1 Granular Activated Carbon (GAC)** -NSF certified for the general removal of chlorine, gases, fuels and disinfectant by-products such as trihalomethanes.
- 2 Centaur Catalytic Carbon** -Higher capacity radon, VOC, chlorine and chlorine by-product polisher.
- 3 KDF 55** - Copper Zinc Alloy using REDOX (oxidation/reduction) to inhibit bacteria, algae, fungi and mold growth. Also removes copper, zinc, aluminum, mercury and nickel.
- 4 Zeolite/Filter AG** - All natural large surface area with a micro-porous structure for reduction of suspended solids down to 5 microns. Traps sediments, rust, asbestos fibers and other particulates in the water.
- 5 Garnet** - Granular filtration media filters down to 10-20 microns and supports the filter bed
- 6 Superior Inline Descaler Cartridge** - Patented inline after- conditioner uses a reverse polarity magnetic field to prevent lime and scale-causing hard water minerals from adhering to pipes, water heater and appliances.
- 7 UV Protector** - High intensity ultraviolet light disinfection for bacteria and viruses.
